

View from the northeast of the intermediate jacking pit area as shown in Exhibit 3.0-3.

View from the southeast of the receiving pit area as shown in Exhibit 3.0-3.

View from the east of the Peltzer Pines Christmas Tree Farm. Aera Energy has proposed to build a residential development on this land, as conceptually depicted in Exhibit 3.0-3.

View from the northeast of the proposed pipeline alignment through property owned by Aera Energy and currently used as interim agriculture.

View from the southeast of the existing U.S. Army Corps of Engineers access road the proposed pipeline alignment would follow prior to connecting with the Carbon Canyon Interceptor.

View from the southwest of the intersection of Rose Drive and Vesuvius Drive, where the proposed pipeline would connect with the Carbon Canyon Interceptor. Carbon Canyon Dam is in the background.
